BRONCHIAL TROUBLES.

Readily Yield to Soothing, Healing Treatment of Hyomei. Bronchial troubles are purely local.

They cannot be helped by stomach dosing. They are caused by irritation in the air passages and can be relieved and cured by medicated air alone. In this lies the secret of the great success of Hy-o-mei in the treatment of bronchial troubles.

The Hy-o-mei medication, laden with nature's remedies, is breathed through the neat pocket inhaler that comes with every outfit, reaching every part of the bronchial tubes and killing at once the disease germs. It allays all irritation and heals the inflammation of the mucous membrane with astonish-

ing rapidity. Treatment with sprays, douches and atomizers in brenchial troubles is condemned by the best physicians, es they cause further irritation.

The first breath of Hy-o-mei's medicated air seems to soothe the inflammation, stop the cough, and thus relief soon becomes permanent and a cure results.

Hy-o-mei has made many remark-

able cures in the worst and most chronic forms of bronchial troubles and is

sold by F. C. Schramm with the same

guarantee as he gives when livo-mei is purchased for catarrh, that is, to refund the money in case the remedy does not give satisfaction. The complete outfit costs but \$1.00. For sale by F. C. Schramm, corner First South and Main streets. "Where

County Attorney Prepares New Faultless Style and Form of Attack Against Police Chief.

CHARGE IS MALFEASANCE

COMPLAINT TO BE FILED IN THE DISTRICT COURT.

Proceedings will probably be begun it the district court this week by Willard Hanson, county attorney, to remove from office George A. Sheets, chief of police, The grounds for the removal, it is as-The grounds for the removal, it is asserted, will be malfeasance in office in connection with the McWhirter robbery.

Having so far failed to prosecute Chief Sheets on the charge of conspiracy, the county attorney, it is understood, is prepared to attack him on new grounds. The proceedings will be brought under section 4565 of the Revised Statutes, which reads as follows: as follows:

"An accusation in writing against any district, county, precinct, municipal or school district officer or officer of any board of education, for any high crime, misdemeanor or malfeasance in office, may be presented by the grand jury or the county afterney of the county in the county attorney of the county in which the officer is elected or appointed."

It is provided in this statute that trial must be by jury and that conviction must be followed by removal from office by the judge.

Will Follow Ogden Case. It was under this section that J.

Skeen, the Ogden attorney, succeeded ousting two of the city councilmen that place last year, and under which he failed to oust Chief Browning of the Ogden police force. In the Browning case the supreme court decided that as it was evident that the only motive was to remove the chief and that he had not been charged or convicted of a misdemeanor or felony the statute would not apply, and that the city council and mayor who appointed him were the only present who

appointed him were the only persons who could remove him from office under the circumstances. The court took the position that it could not remove an official for malfeasance of this character because it had not the power to create him.

The Sheets case is somewhat different.
The chief has twice been accused of criminal conspiracy and twice has been set free on technicalities, due to errors of the prosecuting officers. There is now another information pending against him before Justice Timmons and he will use fore Justice Timmons, and he will un-doubtedly be bound over again to the district court. It is highly probable, how-ever, that the last complaint also will be thrown out of court, as it is identical with the second one issued.

The county attorney will neither deny nor affirm the report that he will begin ouster proceedings against Sheets. F. C. Loofbourow, district attorney, says that he knows absolutely nothing of the report and that the county attorney has not consulted with him in regard to the matter. This in itself is not strange, as the county attorney and the district ney are not on what might be called amicable terms.

CLERKS DECLARE BOYCOTT.

Make Demonstration Before Commercial Street Pawnbroker.

"Nobody buys after \$:30," "Don't buy rom this firm; they promised to close." "Do not buy after 8:30; everyone promised to close to close then." With an array of signs bearing these inscriptions and many others, the clerks of the pawnshops of the city began a boycott on a Commercial street broker who did business after 8:30. They gathered in front of his shop, ad-vising all comers not to patronize him, and placed the sign of warning in conspicous places near his shop. About II o'clock he closed up and the crowd dispersed. The instigators of the boycott say they will keep up the dem-

onstration as long as the broker keeps open after 8:30. The cause of the boycott was a violation of an agreement signed by all the pawn-brokers to close at \$:30 o'clock every evening except Saturdays, from June 24 until Sept. 14. The proprietor of the shop was
